## About Us

With 18 years of extensive experience in the industry, Quadrant Specialties has set the standard in quality, integrity and innovation by providing construction sealants, powder coatings, and construction chemicals throughout the world. We strive to add value to our customers with excellence in technical services along with our ever reliable product and logistical support.

**Complete solution** We provide our customers a comprehensive solution for any sealant requirements, with the supply of trusted, high quality sealant products and their specialist application by our experienced workforce. **Quick customer response** We know the value of customer trust. The company will engage with our customers in a meaningful manner and respond quickly to all the issues related to them. We will make sure that interactions with the customers are smooth and satisfying. **Technical consultancy** Technical consultancy is provided by our team of experts with hands-on expertise in helping you align technology needs with business goals. We assure a smooth implementation of the recommended changes.

**Performance** Quality takes priority over anything else. We provide the modern and best quality silicon sealants to the customers. The products we supply are known for their quality, high bonding strength & tear resistant features. We are able to easily supply our products to interested buyers and our experienced team will...
